Professional Summary

Graduate student pursuing a Master's degree in Information Technology with a focus on Cybersecurity. Computer Science graduate with experience in Python, Java, machine learning, and software development. Interested in cybersecurity risk assessment, incident response, and protecting systems and networks from cyber threats.

Technical Skills

- Python Programming
- Java Programming
- HTML & CSS
- MySQL Database Management
- Machine Learning Basics
- Problem Solving

Education

Master of Science in Information Technology (Cybersecurity)
Franklin University – Columbus, Ohio
Expected Graduation: 2026
Relevant Coursework: Cybersecurity, Network Security, Risk Management, IT Strategy

Bachelor of Technology in Computer Science and Engineering
Vardhaman College of Engineering – Hyderabad, India
Graduated: June 2023 | CGPA: 7.58

Professional Experience

Machine Learning Intern – Internshala (Jun 2022 – Aug 2022)

- Learned machine learning techniques using Python
- Built models for classification and prediction

- Performed data preprocessing and model evaluation

Salesforce Developer Intern – SmartInternz (Jul 2022 – Sep 2022)

- Learned Salesforce development concepts and cloud platform basics
- Developed applications using the Salesforce environment
- Worked with development frameworks and testing methods

Projects

Emojify – Emotion Based Emoji Generator

- Developed a deep learning system that detects facial emotions
- Automatically maps emotions to corresponding emojis
- Technologies: Python, Deep Learning, Machine Learning

Brain Tumor Detection System

- Developed a deep learning model to detect brain tumors using medical imaging datasets
- Focused on early-stage detection using neural networks
- Technologies: Python, Machine Learning, Neural Networks

Certifications

- Python Full Stack Certification – Brain O Vision
- Java (Basics) Certification – HackerRank
- Introduction to Machine Learning – Simplilearn
